## Working of Application.

- Go to the Release Folder and Install the Setup.

- Run the Exe File and Choose the Page where you want to go.

- There are Total 9 Main Buttons. The Numbering of the Button is, Right to Left (According to screen)

- You can also know the number of the button by clicking on it.

- For Further Clarification, See the Attached Picture.

- To Go to the Setting Click on any Empty place with Mouse.

- A Login Form will pop Up.

- User name is "s-creators" while password is "wesam123"

- After that click on the Login Button it will take you to the settings Page.

- Seletect the desired button to change the Audio or Text of the Button.

- For any Issue Please Contact.

Thank you.
